**Truck Bed Floor Support**

**LINE EXTENSION**

- OE PROBLEM: The original truck bed supports corrode easily and the Dealer does not offer a separate replacement option.

- OE FIX: Save time and money by replacing the rusted original supports, not the entire truck bed assembly.
  - Pre-primed in weld-thru primer for clean installation
  - Mounting hardware included for a complete installation
  - Direct fit replacement for popular Ford Super Duty truck applications

**FAILURE MODE:**
- Rust corrodes original cross members making them unstable, resulting in a loose bed

**Differential Cover**

**LINE EXTENSION**

- OE PROBLEM: The original differential cover rusts over time, requiring expensive replacement of the entire axle assembly.

- OE FIX: Save time and money by replacing the rusted original cover, instead of the entire rear axle.
  - Pre-primed in weld-thru primer for clean installation

- FAILURE MODE: The original cover rusts over time and results differential fluid leaks

**Dorman Repair:**
- The Dorman repair saves you money by replacing the rusted original supports, not the entire truck bed assembly.

**HVAC Heater Hose Assembly**

**LINE EXTENSION**

- OE PROBLEM: The original heater hose fails when the plastic connector eventually cracks and leaks.

- OE FIX: Plastic connector replaced with metal mart for increased durability and longer service life.
  - Clamps included for a complete installation

- FAILURE MODE: Original plastic connector cracks over time and results in coolant leaks and loss of pressure

**Engine Coolant Bypass Valve**

**NEW**

- ONLY AVAILABLE IN THE AFTERMARKET FROM DORMAN

- Electronically actuated bypass valve controls the flow of coolant through the engine
  - Prevents slow engine warm-up, keeping the vehicle in proper working order
  - Direct replacement for the original equipment design

- FAILURE MODE: Internal electronics failure results in slow engine warm up

**Alternator Bracket**

**NEW**

- ONLY AVAILABLE IN THE AFTERMARKET FROM DORMAN

- Holds the alternator onto the engine
  - Mounting bolt included for a complete installation
  - Direct replacement for the original equipment design

- FAILURE MODE: The original bracket cracks over time, causing the alternator belt to slip and resulting in a dead battery
**Instrument Clusters**

LINE EXTENSION  **OVER 240 SKUS AVAILABLE**

The primary information source for the speedometer, odometer, tachometer, and other various gauges and warning lights

- Completely remanufactured, including all new stepper motors and backlight bulbs, and featuring the latest upgraded designs
- Ready to install - unit is shipped pre-programmed with calibrated mileage and VIN
- No scan tool necessary during installation

**FAILURE MODE:**
- Original motors and bulbs burn out, display goes dark, and gauges don’t function properly

**599-602**
Ford Expedition 2002-08, Ford F-150 2001-00
Pop Code: 50 | VIO: 1,002,959

**ABS Control Modules**

LINE EXTENSION  **OVER 40 SKUS AVAILABLE**

The heart of the ABS system, the control module restores brake line pressure lost from a failed accumulator

- Fully remanufactured and tested on an automated vehicle simulator for quality assurance
- Updated with more durable main pump transistors to help prevent pump relay burnout
- Direct replacement for the original equipment design

**FAILURE MODE:**
- Accumulator fails causing the motor to run excessively, resulting in illumination of the ABS light and loss of anti-lock brakes

**587-765**
Toyota Prius 2009-04
Pop Code: D | VIO: 558,115

**EGR Gasket Set w/ Crankcase Ventilation Filter**

LINE EXTENSION

Service kit for cleaning the EGR valve and cooler

- Includes all required gaskets and crank case ventilation filter for a complete repair
- Easy-to-install, direct fit replacement

**FAILURE MODE:**
- EGR system becomes clogged with soot, resulting in illumination of the check engine light and poor engine performance

**904-481**
Dodge 2010-07, Ram 2012-11
Pop Code: B | VIO: 415,752

**Cowl Panel**

LINE EXTENSION

Covers the wiper transmission at base of windshield

- Easy-to-install, direct-fit replacement matches the aesthetic design of the original
- Ideal replacement part - often damaged while servicing wiper/washer components underneath

**FAILURE MODE:**
- Sun damage, snow, and impact cause cracking or loosening of the panel

**30903**
Ford Mustang 2004-99
Pop Code: C | VIO: 532,396

**Steering Knuckles**

LINE EXTENSION  **OVER 130 SKUS AVAILABLE**

Connects the wheels to the vehicle suspension

- Material upgraded from aluminum to cast iron for increased durability
- Rust and corrosion resistant for a longer service life
- Includes new bushings and ball joints, where applicable

**FAILURE MODE:**
- Curb, pothole, and collision damage results in knocking noise and uneven tire wear

**698-230**
Ford Edge 2014-07, Lincoln MKX 2015-07
Pop Code: C | VIO: 1,130,409

**Third Brake Light Assemblies**

LINE EXTENSION  **OVER 75 SKUS AVAILABLE**

Illuminates to alert other drivers when vehicle slows down or comes to a complete stop

- New LED bulbs provide up to 10x more brightness than standard incandescent bulbs
- Plug-and-play connector for easy installation

**FAILURE MODE:**
- Lights burn out and not serviceable
